INSIGHTS

1. CITY ANALYSIS

- Delhi NCR has the highest revenue and customer base, followed by Mumbai and Hyderabad.
- Indore has the least revenue and customer base.

2. POLICY ANALYSIS

- The POL2005HEL policy generates the highest revenue but The POL4321HEL has maximum customers.

3. AGE GROUP ANALYSIS

- The 31-40 age group generates the highest revenue and also maximum number of customers

4. SALES MODE ANALYSIS

- Offline agents generate the most revenue. It was the top performer generating 55.67% of total revenue and contributing 55.41% of all customers.

5. REVENUE TREND ANALYSIS

- Highest revenue shows in March 2023 and least revenue shows in November 2024.

6. CLAIM SETTLEMENT

- Customers of age-group had the highest expected settlement amount , while those of age-group of 18-24 had the least expected settlement amount.

RECOMMENDATIONS

1. CITY ANALYSIS

- Indore has the least revenue so focus on Indore by applying the strategies used by Delhi NCR to boost the revenue and customer growth.

2. POLICY ANALYSIS

- The POL2005HEL policy generates the highest revenue so focus on expanding marketing efforts, optimizing pricing, and enhancing customer experience to maximize its impact.

3. AGE GROUP ANALYSIS

- Find out why customers age 18-24 are less interested in buying policies. Consider offering affordable, customized plans that fit their needs and budget

4. SALES MODE ANALYSIS

- Most customers and revenue are come from offline agents so improve the customer support and website features to increase the online platform customers.
